

SOHAIB TANVEER

Unity Game Developer | XR & Metaverse Specialist | Real-Time Networking

[+92-311-502-4772](tel:+92-311-502-4772) • sohaibtanveerraja@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Unity Game Developer with 4+ years of end-to-end experience shipping cross-platform games, AR/VR applications, and metaverse environments. Expert in C#, real-time multiplayer networking (PUN2, WebRTC, Socket.IO), mobile optimization for iOS/Android/WebGL, and scalable game architecture. Track record includes a mobile game exceeding 1 million downloads and large-scale metaverse platforms serving 40+ clients—delivered collaboratively in agile, global studio environments.

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, HTML/CSS

Engine & Tools: Unity 3D, Visual Studio, Rider, XCode, Blender, Adobe Photoshop, Figma, Jira, Notion, Slack, Swagger

Gameplay & Systems: Multiplayer Networking (PUN2, WebRTC, Socket.IO), AR/VR, Game AI, Character Controllers, Addressables, Animation Systems, Cinematic Cutscenes, Physics Simulation

Backend & DevOps: AWS, Firebase, REST APIs, .NET / ASP.NET, GitHub, CI/CD Build Automation

Platforms: iOS, Android, WebGL, PC, VR

Soft Skills: Agile/Scrum, Cross-functional Collaboration, Technical Documentation, Code Review

PROFESSIONAL EXPERIENCE

[Inox Arabia](#) | Remote | Apr 2025 – Present

Unity 3D Developer

- Led full-cycle Unity 3D development of Mbaye — a cross-platform social networking app on Web, iOS, and Android — architecting real-time features from the ground up.
- Designed and implemented live social infrastructure including user profiles, friends system, push notifications, messaging, and video calling using WebRTC and socket-based frameworks.
- Built dynamic content pipelines for blog posting, status updates, and media uploads, ensuring cross-platform UI/UX parity across Android, iOS, and WebGL builds.
- Engineered moderation and safety systems compliant with Apple App Store guidelines (reporting, blocking, user management), enabling successful production releases.
- Collaborated with backend engineers and designers to define RESTful APIs, data structures, and client-server interaction contracts.

[NOBORDER.z INNOVATIONS](#) | Lahore, Pakistan | May 2023 – Apr 2025

Game Developer

- Developed key features for the XANA Metaverse platform using Unity and C#, delivering dynamic NFT museum experiences for 40+ clients and integrating custom chat via REST APIs and sockets.
- Improved character controller performance and responsiveness by 30% through optimized physics, animation blending, and input handling.
- Resolved 100+ bugs across PUN2 multiplayer, UI systems, character customization, user feeds, and profiles; built automated regression tools that reduced QA cycle time.

- Created immersive metaverse environments including [XANA Summit](#), Tottori Metaverse, and an interactive skating mini-game, driving platform growth and engagement.
- Led mobile-to-PC and WebGL port of the XANA app, maintaining consistent CI/CD build automation across platforms.
- Contributed to 'VANIRA,' a live AR streaming app — implementing virtual character interactions, live chat, and digital gifting for real-time audience engagement.
- Authored technical documentation supporting external studio onboarding and third-party integration workflows.

Apex Logics | Islamabad, Pakistan | Feb 2022 – May 2023

Unity 3D Game Developer

- Designed and shipped 60+ gameplay levels and 30+ cinematic cutscenes in Unity, collaborating with producers to optimize the content delivery pipeline.
- Developed [Dubai Police Car Games 3D](#) from concept to launch, exceeding 1 million downloads — managing gameplay mechanics, AI systems, and performance optimization end-to-end.
- Built a full [Flight Pilot Simulator](#) and contributed to [Pak Truck Driver 2](#) — demonstrating versatility across simulation and action game genres.
- Used Firebase analytics and custom automation scripts to analyze user engagement and retention, driving a 30% improvement in overall user experience.

Game Train | Islamabad, Pakistan | Sep 2021 – Dec 2021

Junior Game Developer (Trainee)

- Contributed to 3 Unity game prototypes, applying scene setup, asset integration, C# scripting, and OOP design principles under senior developer mentorship.
- Gained hands-on experience with game development pipelines, build processes, and industry best practices.

FEATURED PROJECTS

[XANA Summit](#) — Metaverse • Web3 • Multiplayer • VR • AI Bots • WebGL • Mobile • PC

[Mbaye](#) — 3D Social Networking App • Cross-Platform • Video Calling • UGC • iOS • Android • Web

[Dubai Police Car Games 3D](#) — 1M+ Downloads • Mobile • Action • Android

[Flight Pilot Simulator](#) — Mobile • Simulation • Flight • Android

[Pak Truck Driver 2](#) — Mobile • Simulation • Cargo • Android

EDUCATION

Bachelor of Science in Computer Science

COMSATS University Islamabad | Wah, Punjab, Pakistan | 2015 – 2019
